Attachments: BriefingDewey-Burdock-Oct2017-v1.docx; PatarickDavisBriefingFigures.pdf

This briefing is for Patrick Davis. As you can see from the chain below, a couple of people in HQ reached out to him regarding DB and wanted to meet with him on Tuesday. The UIC program tells me that the ultimate purpose is to prepare Patrick for a meeting w/ Powertech. I know Kimi is out today, and this is due COB today, but I wanted to pass along anyway. I am in the process of reviewing. I will pass along my edits in case you have comments by the end of today to add.

Subject: RE: Dewey Briefing

Attached is the draft briefing document and 7 figures.

Ex. 5 AC/DP

If you have changes you would like me to make tomorrow, I will be happy to make them. Please text me at Ex. 6 Personal Privacy (PP) let me know to check my email. I want to participate in making this briefing 🎵 awesome 🎵!

Thanks!

Valois

Subject: Dewey Briefing

Hi all –

Darcy and I just spoke about the Dewey Briefing for Patrick Davis. Here's what we discussed as an outline for the briefing paper:

Ex. 5 AC/DP

The meeting will probably be Monday 10/23 @ 9:30am if that works for ORC. That means we need to get a paper to Patrick by COB tomorrow, and something to Darcy by mid-day/early afternoon tomorrow. Is that feasible? Let me know if you need help on specific sections.

Thanks,
Sarah

Subject: FW: Call - R8 Issue

I'm checking with Patrick to see if he'd like a briefing with the team – I'll let you know what I hear back. Sarah, let's take some time in our meeting today to talk about the messages we want to convey. Douglas – did you hear anything from the state on their call (I think it was last Friday) w/Sarah?

Thanks
D

Hi Darcy,

I am scheduled to have a call with Sarah Greenwalt and Alex Dominguez on October 24 to discuss the Dewey-Burdock Project Class III Area Permit. Could you please bring me up to speed on this topic before this call?

Thanks,

Patrick Davis

Subject: RE: Call - R8 Issue

Morning Patrick,

Attached are three documents:

- 1) Office of Water Background on Class III Underground Injection Control Wells
- 2) Powertech's Comments on the Dewey-Burdock Project Draft Class III Area Permit – the bulk of their argument is in pages 1-20. After that it is heavy on the technical details.
- 3) EPA's 2014 Comments on the Final Supplemental Environmental impact Statement prepared by the Nuclear Regulatory Commission

The one-sentence crux of the issue in Powertech's comments is the company believes the draft permit is unprecedented in its monitoring and sampling requirements.

A few other factors worth mentioning:

- South Dakota does not have a state program for Underground Injection Control Wells, requiring EPA to approve Class III permits in the state.
- If approved, this will be the first Class III in-situ recovery permit in South Dakota.
- It has been nearly 10 years since the company originally submitted their permit application.

Any other questions before we talk please let me know.

Best,
Alex

Alex, is there any way we can do earlier? I am traveling for work and my flight leaves at 4:15. I'll try to make any time before 3pm work.

Hi Alex,

October 24 is relatively open at this point. Please send an Outlook meeting invite and I will make my self available to you. If you happen to have any pre-reading to send I would appreciate it.

Thanks,

Subject: Call - R8 Issue

Hey Patrick,

Hope all is well and you are enjoying Colorado. I'm sure you are already swamped but I was wondering if I could set up a call with you, me, and Sarah Greenwalt on a R8 issue that has been brought to our attention regarding the nearly 10 year permit application process for a Class III well in South Dakota. We would just like to provide you some background and brief you on the discussions we have had over the past couple weeks.

Looking at Sarah's calendar it looks like she is on a bit of travel the next couple weeks but should be available late afternoon of Oct 24th if that would work. If a better day works and Sarah is on travel I can fill her in as well.

Best,
Alex
